- **Visitors:** Please type your user & password from your MCI WLAN-Voucher.

Congratulations, you are now connected to the internet via eduroam.

Eventually, Windows will ask you to check the server certificate. After

- having checked and confirmed the “DigiCert External CA Root” Certificate, the internet connection will be symbolized by .

KNOWN PROBLEMS

Many problems are caused by outdated driver software. Please install the most recent driver software for your WiFi hardware. Do not use the driver software provided by your notebook manufacturer, but the one provided by your WiFi-hardware manufacturer, because they generally provide the most recent driver software.

Please use the pre-installed WiFi management software by Windows of your device and do not use alternative management software provided by your notebook-manufacturer such as Sony Smartnetwork or similar.
